Development of methods to scale implementation supports for effective innovations
Development and evaluation of implementation, organizational change, and system reinvention strategies and methods in human services (education, health, social sciences)
Development of strategies for improving policy making in human service systems
Development of state and national policies in support of implementation of evidence-based programs and other innovations with fidelity and good outcomes for the intended beneficiaries
Applied research

PAST EXPERIENCE

Intervention Development

Co-Founder of the internationally acclaimed Teaching-Family treatment model for children, families, and adults across North America

Co-Developer of treatment systems for children, families, youths, and adults in family-style group homes, home-based services, and semi-independent-living services

Co-Developer of an integrated continuum of neighbourhood-based support, home-based treatment, treatment foster care, short-term and long-term group home treatment, and semi-independent-living treatment services for children, families, & adults

Co-Founder of a group of "model developers" (ACT, Homebuilders, People Places, PRYDE, Teaching-Family Model) to define "programs" and operationalize "treatment models"

Systems Development

Developed infrastructures of implementation teams to support the full and effective uses of innovations in education and child welfare systems

Established humane, effective, individualized, satisfactory, cost-efficient, and teachable treatment programs in a variety of organizations

Developed integrated and compensatory methods for staff selection, training, evaluation, supervision, program evaluation, and administrative support systems to improve service quality

Established systems for developing, testing, replicating, and widely implementing integrated human service treatment programs

Developed methods for creating infrastructures for implementation of effective programs and reinventing human service systems

Changing Human Service Systems

Member of various groups in Kansas that successfully lobbied to prevent the development of more institutions for delinquent children and open more community and family programs instead

Member of a team of five professionals that transitioned Father Flanagan's Boys' Home from a residential institution that was the subject of a Pulitzer Prize winning expose to an award-winning "community" of 50 family-style homes for over 400 boys and girls

Worked for 10 years with the Plaintiff's attorneys and the US Department of Justice in the landmark Morales v. Turman case in Texas, a class action suit seeking to bring about better conditions in the state institutions for delinquent children and create a more humane and responsible state system of care

Served on the Board of Directors of the Alberta Association for Services to Children and Families during the time that it was recreated and revitalized to become an effective voice for children's services in Alberta Canada

Created and chaired the Child Welfare Working Group that included the Deputy Minister of Family and Social Services and representatives of various treatment modalities and regional government interests seeking to bring about changes in child welfare programs in Alberta

Co-founder of the Calgary Healthy Start Alliance consisting of agencies and government departments that formed a collaborative relationship to design and implement prevention/early intervention programs for children prenatally to age six who are born into "high risk" families

Invited member of the National Blending Initiative Task Force established by the National Institute on Drug Abuse (NIDA) and Substance Abuse and Mental Health Services Administration (SAMHSA), Tim Condon, Deputy Director of NIDA, Chair

Founding member of the Keystone Group for the Norval Morris Project sponsored by the National Institute of Corrections (NIC) and the Justice System Assessment & Training group (J-SAT) to reform corrections nationally, Brad Bogue, Ph.D. and Jerry Brown, Ph.D., Co-Directors

Co-founder of the National Implementation Research Network (2002 – present) to bring together information, people, and processes to improve the science and practice of evidence-based program implementation (<http://www.fpg.unc.edu/~nirn/>)

Co-founder of the Global Implementation Initiative (2012 – present) to promote and establish coherent and collaborative approaches to implementation practice, science, and policy; major initiatives are the biennial Global Implementation Conference; the development of a Global Implementation Society to define, support, and expand professional roles in implementation; and organizing efforts to establish coursework, certificate programs, and degree programs to strengthen professional knowledge, skills, and abilities. (<http://globalimplementation.org>)

Partner in the WHO Collaborating Center for Research Evidence for Sexual and Reproductive Health, Herbert Peterson, Director

Program Replication And Implementation

Established methods for recruiting, selecting, and hiring staff members who reliably meet performance-based criteria

Co-Developer of a Site Development program that helped create over 800 replications of the Teaching-Family Model in community and campus-based residential agencies across North America

Established organized workshops and co-authored training manuals for preservice training for systematically training clinical staff, training trainers, training supervisors and treatment consultants, training evaluators, and training administrators

Co-founder of the Teaching-Family Association (1975 – present), a national self-regulated community of practice designed to maintain and improve fidelity standards for practitioners and organizations (www.teaching-family.org).

Co-Developer (in cooperation with Positive Behavior Intervention and Support experts at the Universities of Connecticut and Oregon) of the Center for State Implementation and Scaling up of Evidence-based Practices to transform state education systems, change school organizational structures, and implement science-based education practices to benefit students in several states (www.scalingup.org)

Evaluation And Fidelity

Established practical program evaluation measures for group home, foster care, and home-based treatment programs, and management systems to use the information for decision making

Established outcome measurement systems for children's services

Conducted research to discover/ affirm effective treatment and organizational support processes

Established measures to assess the performance of whole organizations including internal and external consumer evaluations, performance reviews, and data systems

Established demographic information assessment tools, data collection routines, and data based retrieval systems

Established staff evaluation methods to assess the complex on-the-job performance of group home Teaching-Parents, Treatment Foster Parents, independent-living Counsellors, and home-based Family Specialists

Participated in the Sustainable Calgary group to establish initial measures of the quality of life in a large metropolitan area (re: resource use, economy, community, natural environment, and health and education)

Worked with others to establish practical program evaluation methods (e.g., Kansas Department of Social and Rehabilitation Services, Kentucky Cabinet for Human Resources, New York State Commission on Quality Care, US National Institute of Mental Health, Washington, DC Institute for Behavioral Resources)

Designed and conducted statewide evaluations of Florida's services for the developmentally disabled on behalf of the Office of the Attorney General

Established measures of implementation best practices and state, regional, and district capacity for implementation

Communications

Authored over 150 articles published in professional journals and books

Authored over 600 papers presented at professional conferences

Participated in producing 12 films and multiple videos

Served as a reviewer of professional articles submitted for publication in a variety of different journals, served on the Editorial Review Board for the Journal of Applied Behavior Analysis, Child and Family Behavior Therapy, and Implementation Science, and served as an Associate Editor for the Journal of Applied Behavior Analysis

Served on the Board of Directors of the Society for the Experimental Analysis of Behavior that publishes the Journal of the Experimental Analysis of Behavior and the Journal of Applied Behavior Analysis

Founding member of the Board of Editors for the journal Implementation Science

Served on dissertation committees for international students doing research on implementation at Oxford University, University of Oslo, University of Toronto, University of Vienna, and a resident of the West Bank.

Co-Editor (with Terje Odgen, Norway) of an invited Special Issue on Implementation for *Zeitschrift für Psychologie*, the second oldest journal in the field of psychology.

Administration

Participated in Executive Management and worked with Boards of Directors with respect to agency operations, planning, major facility renovations, organizational change, fund raising, transportation, visioning and goal setting, accountability systems, budgeting and reporting, and Board recruitment

Created and managed service program operating budgets of over \$12 million annually including estimating, preparing, negotiating, documenting, reporting, auditing, and accountability

Established and managed personnel systems for over 500 staff members including hiring, supervising, and promoting staff and establishing salary scales and rating systems for positions

Co-authored grant applications to support research and program development and managed a variety of research, training, and technical assistance programs

Advised federal and state government agencies with respect to policies and regulations that impact the implementation and sustainability of evidence-based practices and implementation strategies

Honors And Awards

Elected to Psi Chi, national honorary society in psychology

Ph.D. with honors, University of Kansas

Appointed by Governor Robert B. Docking to the Kansas Governor's Criminal Justice Advisory Panel

Invited to present to the U.S. House of Representatives Select Committee on Crime

Selected as Associate Editor of the Journal of Applied Behavior Analysis

Received the Distinguished Contributions award from the Teaching-Family Association

The American Psychological Association (1996) reviewed programs internationally and selected the Teaching-Family Model as a "Model Program in Service Delivery in Child and Family Mental Health"

The Office of Juvenile Justice and Delinquency Prevention (1998) reported the results of a meta-analysis of over 200 studies and that had looked for "specific program characteristics most closely connected with the reduction of reoffense rates of serious offenders." The Teaching-Family Model was named as one of four interventions in the top classification, "positive effects, consistent evidence"

The Surgeon General of the United States (1999) reviewed the state of current knowledge in mental health and made recommendations to advance the field. In Chapter 3, the report listed the Teaching-Family Model as one of two models of "therapeutic group homes" that are "conducive to learning social and psychological skills"

Elected to Fellow status by the American Psychological Association and Elected as a Fellow by Division 37: Child, Youth and Family Services, Division 27: Community Psychology, and Division 25: Experimental Analysis of Behavior

Elected as a Fellow by the American Association of Applied and Preventive Psychology

Emeritus Award, Lifetime Contribution, Teaching-Family Association

Selected as a member of the National Institute on Drug Abuse National Blending Task Force

Recipient of the Scientific Translation Award, Society for Applied Behavior Analysis
